PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience in full-stack web development, Salesforce CRM platform development, and machine learning research. Proficient in JavaScript/TypeScript, React.js, Next.js, Node.js, Salesforce Apex, and Python. Demonstrated ability to deliver scalable solutions through internships and academic projects, with expertise in AI integration, cloud technologies, and CRM automation workflows.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java, C++, SQL, HTML5, CSS3
- **Frontend Technologies:** React.js, Next.js, Lightning Web Components (LWC), Tailwind CSS, Bootstrap, Responsive Design
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, GraphQL, Microservices Architecture
- **Salesforce Technologies:** Apex, Salesforce Admin, jsforce, SOQL/SOSL, Lightning Platform
- **Databases & Storage:** MongoDB, MySQL, PostgreSQL, Supabase, Prisma ORM, Database Design
- **Cloud & DevOps Tools:** AWS, Git, GitHub, Docker, CI/CD, OAuth, JWT Authentication, JIRA, Postman
- **Machine Learning:** Supervised Learning, Unsupervised Learning, Reinforcement Learning, TensorFlow, scikit-learn

PROFESSIONAL EXPERIENCE

Software Developer | Koshine Tech Labs Feb 2025 – Present

Working as a full-time Software Developer on enterprise-grade SaaS products and Salesforce-integrated platforms. Contributed to **CRUDSpace** and **Replydock**, focusing on scalable backend systems, multi-tenant architecture, and CRM integrations.

- Built **CRUDSpace**, a Salesforce platform with multi-org management and a custom metadata editor using LWC and Apex.
- Contributed to **Replydock**, a multi-tenant customer communication platform integrating Slack and WhatsApp (Meta Cloud API).

Research Intern | BITS Pilani Goa Campus Dec 2024 – May 2025

Designed ML models for lignin prediction chatbot (Python, scikit-learn) with 85% accuracy. Applied feature engineering & hyperparameter tuning on chemical datasets for robust predictions. Built React.js chatbot with REST APIs for real-time ML predictions and data visualization.

KEY PROJECTS

Cloud Force CRM Manager (CFCRM) | Next.js, jsforce, Salesforce API, AI Integration May 2025

Developed AI-powered Salesforce CRM platform with Sales Cloud & Service Cloud support, natural language query assistant, schema visualization, multi-org management, and secure OAuth authentication. Responsive UI built with Next.js & Tailwind CSS featuring real-time analytics and interactive dashboards.

Uber Clone - Ride Sharing App | React.js, Node.js, Socket.IO, Google Maps API November 2024

Built full-stack ride-sharing application with real-time booking, vehicle selection, fare estimation, live GPS tracking, and responsive React.js frontend. Backend APIs handle authentication, ride management, payments, and driver-passenger matching. JWT & Socket.IO used for security & real-time updates.

StudyNotion - EdTech Platform | MERN Stack, Razorpay Integration November 2023

Developed educational platform for course creation, enrollment, content management, and progress tracking. Integrated secure Razorpay payments, scalable backend with Node.js & MongoDB, user authentication, rating system, and RESTful APIs supporting 1000+ users.

EDUCATION

Bachelor of Technology in Information Technology **2021 – 2025**
SGGS Institute of Engineering and Technology, Nanded *CGPA: 7.94/10*

- **Relevant Coursework:** Data Structures & Algorithms, Database Management, Software Engineering, Computer Networks, Machine Learning

CERTIFICATIONS & TRAINING

Salesforce Certified Administrator 2025

Salesforce AI Associate Certification 2025

Salesforce Agentforce Certification 2025

Full Stack Web Development (MERN Stack) - 3 Month Certification August – October 2024

Java Development Workshop - Faculty Training Program June – July 2023

Basic German Language Course Completed
